Internships

NALCO HR Intern	June 2025 – July 2025
Project Name: Employee Welfare and Incentive Schemes at NALCO: A Strategic HR Perspective	
• Analyzed 7+ HR policy documents, including medical benefits, funeral assistance, and insurance schemes, improving understanding of employee welfare frameworks. • Designed and conducted a Google Form-based employee survey, collecting feedback from 150+ employees, ensuring comprehensive participation and accurate insights. • Identified satisfaction trends and proposed 5 key improvements to welfare programs, enhancing employee engagement and retention potential. • Prepared a comprehensive report on employee welfare and incentive schemes, highlighting gaps and recommending strategic improvements to enhance program effectiveness. • Collaborated with HR team to review survey results and implement improvement suggestions, impacting over 200 employees and enhancing overall program effectiveness and satisfaction.	

Projects

Predicting Employee Attrition Using Machine Learning	December 2025- April 2026
• Built a Logistic Regression model in Python achieving ~86% accuracy to predict employee attrition; performed end-to-end data preprocessing including cleaning, label encoding, and feature scaling using Pandas and Scikit-learn. • Identified key attrition drivers: overtime, travel frequency, and distance from home increase risk; job satisfaction, income, and tenure reduce attrition. • Developed a Power BI dashboard visualizing attrition rates, high-risk employee segments, and department-wise attrition trends for HR decision-makers.	
Learning and Development at Raghunath Machinery Pvt. Ltd.	January 2025 – May 2025
• Executed a primary research-based assessment of L&D initiatives using structured surveys across departments, collecting feedback from 120+ employees. • Evaluated training program reach and effectiveness, identifying that 65% of employees attended training in the past year and reported improved job performance. • Compiled a comprehensive project report under MBA final thesis guidelines, summarizing findings, insights, and actionable recommendations for management.	

Certifications & Trainings

- Attained Power BI Workshop – Data Analytics for HR at LUDIFU.
- Completed Foundation Course on Generative AI – Microsoft.
